

Our Services and Training Packages

WE SPEAK QUANTUM

Why Choose Qureca?

We offer expert advice taken from personal experience.

We provide the link between the stakeholders within the quantum community.

We work closely with you to ensure your quantum needs are met.

Ensuring you and your business are
quantum ready

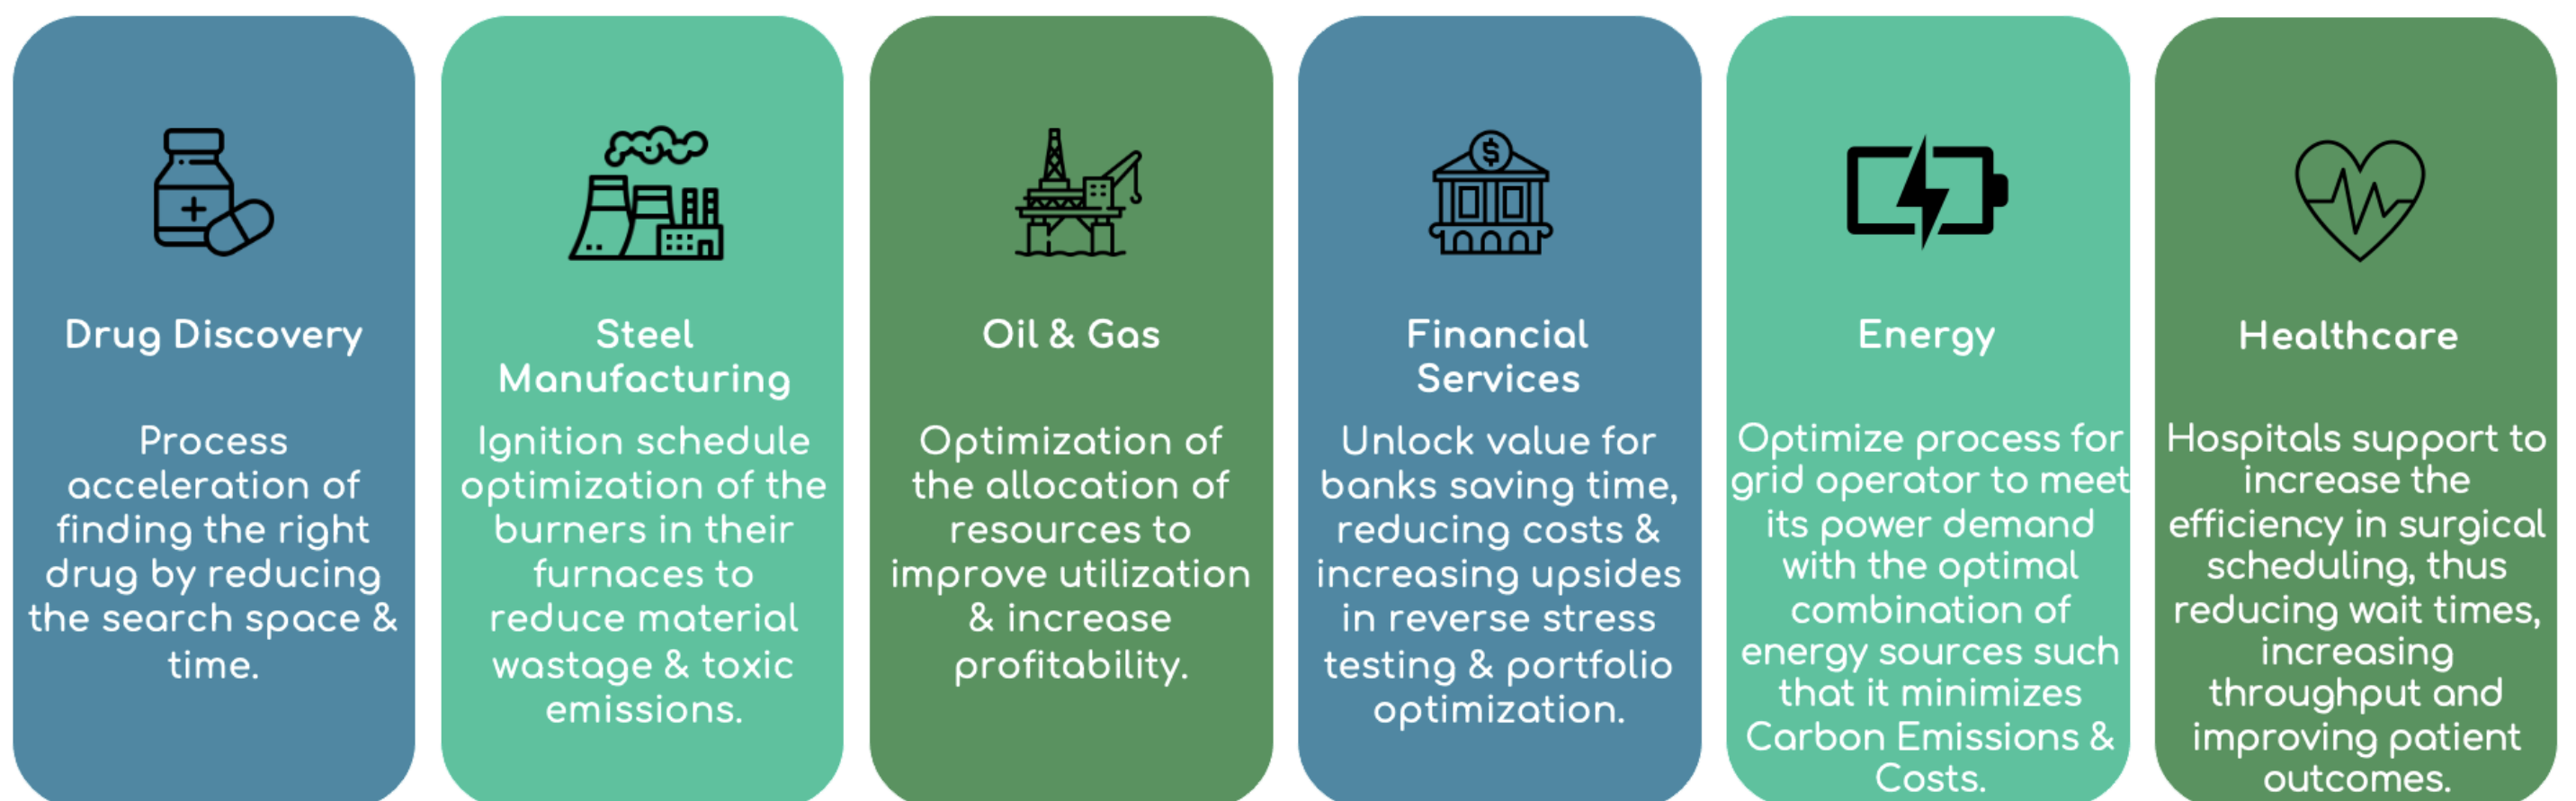

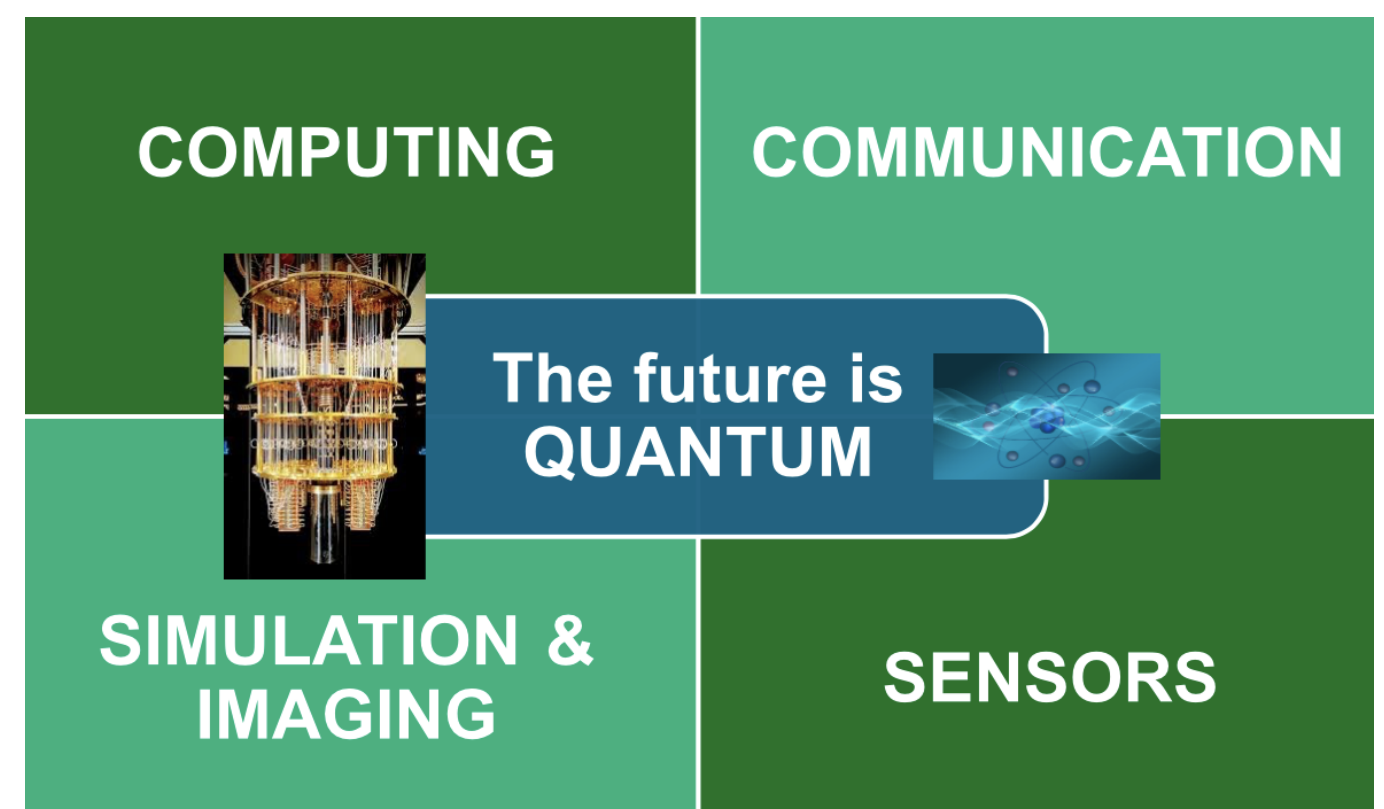

QURECA
quantum resources & careers

What are QUANTUM TECHNOLOGIES?

At the turn of the last century, we saw a shake-up in physics, as the theory at the smallest scale (quantum mechanics) and across the largest distances in the universe (general relativity) were formulated.

"Over the years experiments soon followed the theory and quantum technology was developed. However, it has only been in the last decades that researches have been able to control quantum matter in a useful and unprecedented way. Such control now enables us to engineer a new technology.

Examples of use cases with quantum computing

Welcome to the second quantum revolution!

Quantum technologies involve different kinds of applications: computing, communication, simulation, imaging, and sensing.

Many governments and industries are turning their attention to quantum technologies as they offer significant advantages over existing technologies.

Quantum technologies have the potential to disrupt classical knowhow.

As technologies that exploit the laws of quantum physics, they are capable of addressing some of the biggest challenges humanity faces in the digital era, such as enhancing secure communications, expanding computational power, and significantly improving the accuracy of sensors.

Qureca Services

Arising from our expertise in both research and industry, we know the way to integrate quantum technologies into your business, offering services that are tailored to your specific sector and your specific business requirements.

No matter where you are in the world, Qureca wants to support your company, helping to develop your skills in the field of quantum technologies.

Business Development

Qureca can help you grow your business independently of your current situation.

The creation of long-term value for your organisation starts now. Qureca provides professional support to start-ups and businesses and helps them become leaders in the field of quantum technologies.

Business Intelligence

Key strategic decisions aligned to a defined business vision can be the differentiator between failure and success. Qureca supports businesses to build their strategy in the field of quantum technologies.

Training and Resourcing

Qureca, is the first online platform for quantum training and resourcing, provides the solution to the quantum workforce skills bottleneck, seeking to support individuals and businesses to be part of the quantum revolution.

OUR SERVICES

Quantum Training

Together with our expert partners, we develop a wide range of training programs suitable for individuals and businesses of all quantum skill levels..

Recent training courses:

- Quantum For Everyone
- Quantum Computing for Finance

Quantum Recruitment

Qureca supports businesses to hire the needed expertise, and provides career coaching services to anyone looking for a job in quantum technologies.

We also organise dedicated career events, contact us to know more.

Business Development

Qureca provides professional support to start-ups and businesses and help them become leaders in the field of quantum technologies.

Business development services:

- Build your brand
- Identify opportunities
- Grow your business

Business Intelligence

Qureca supports businesses to build their strategy in the field of quantum technologies.

Business intelligence services:

- Interpret the data
- Make better decisions
- Build your strategy

Training and Resourcing

Online Courses

Our goal is to make you and your business quantum ready.

Together with our expert partners, we develop a wide range of training programs.

Explore our [courses](#) and become an expert in the field of quantum technologies!

Tailored Packages

Quantum technologies will have a different impact depending on your business sector.

We can create the first training program for you and your company.

Transform your business with our integrated approach to quantum technology training.

Quantum Events

Qureca offers its members the most relevant events in the field of quantum technologies.

Our webinars and workshops include a broad range of topics presented by a cohort of global experts.

Stay up to date with the quantum ecosystem!

Identifying the right quantum skills during the recruitment process is extremely challenging.

We offer you the most personalised recruitment service in the quantum community.
